Quincy, Jan. 25, '63—n25-4f Proprietor.

WHO WILL CARE FOR MOTHER NOW?

Why am I so weak and weary;
See how faint my heated breath
All around me seems darkness,
Tell me comrades, is this death?
Ah! how well I know your answer—
To my fate I meekly bow,
If you'll tell me truly:
Who will care for mother now?

Chorus—Soon with angels I'll be marching,
With bright laurels on my brow;
I have for my country fallen,
Who will care for mother now?

Who will comfort her in sorrow?
Who will dry the fallen tear,
Gently smooth her wrinkled forehead?
Who will whisper words of cheer
Even now I think I see her
Kneeling, praying for me! how
Can I leave her in her anguish?
Who will care for mother now?

Chorus—
Let this knapsack be my pillow,
And my mantle be the sky;
Hasten, comrades, to the battle!
I will like a soldier die.
Soon with angels I'll be marching,
With bright laurels on my brow;
I have for my country fallen,
Who will care for mother now?

Chorus—
[For THE QUINCY UNION.]
MUSIC. NO. 2.
BY J. W. SNYDER.

The origin of music, and its cultiva-
tion can be traced back to the early de-
scendants of Adam, previous to the Delu-
ge. There is an account in the Bible
of the first musician, whose name was
Jubal. "He was the father of all such
as handle the harp and organ." He was,
no doubt, the first inventor of those in-
struments.

Music, as an art and science, must
have been in a very obscure and imper-
fect state, from the fact that the musi-
cians of Jubal's time knew nothing of a
musical staff, and the arrangements of
the different parts in their music. If
they had a staff upon which they wrote
their music and different parts, it must
have been lost in the deluge with them.

The Egyptians were among the first
who cultivated music as an art and
science after the Flood. Among them
were some musicians, who were quite
celebrated for their performances. They
were of both sexes, vying with each
other for glory and renown.

The ancient Greeks were also distin-
guished for their attention to the culti-
vation of musical science. Lamia, a
beautiful Grecian lady, was one of the
most celebrated musicians of her nation.
It is said she was one of the first Flu-
tists of her day.

Pythagoras, the celebrated ancient
philosopher, taught music in his schools
from which emanated many who excelled
in musical knowledge and science, from
all nations then in existence; but like
his predecessors, he knew nothing of a
musical staff and harmonic parts in his
music, as history does not speak of it.

The staff was first introduced, A. D.
1304, (six hundred and sixty-one years
ago) by Guido Aretine, a Benedict
Monk, of Aretium, in Tuscany. It con-
sisted of five lines and four spaces, upon
which he wrote the seven first letters of
the alphabet in the same position that
they are written at the present day.—
Guido used the F and C clefs. He de-
vised and used six different notes in his
musical scale, which he called Ut, Re,
Mi, Fa, Sol and La. He was also the
first musical writer who harmonized music
into different parts. Le Marie, (a
Frenchman,) added another note to
Guido's six, to form the seventh note of
Guido's scale which he called See, to
correspond with Guido's lettered scale.

This new note was added to Guido's
scale some four hundred and ninety-six
years after his time; but so strong was
the prejudice and jealousy against Le
Marie's new note, that he advocated and
pleaded for its adoption into Guido's scale
for the space of thirty years, without
gaining the approbation of a single mu-
sician; but no sooner were his pleadings
silenced in death, than all the world
adopted it into Guido's scale, which is
the same as the one in present use, with
the exception of the first note, which has
since been changed by the Italians from
Ut to Doe. These seven notes or syl-
lables, with Doe repeated, forming eight
notes, is what is termed an octave in
music. The names of these notes are
best and most appropriate that have
ever been devised, and will in all proba-
bility never be changed. The notes of
Guido's scale did not represent the length
of sounds. They were mere marks, or
dots, showing only the gravity and

acuteness of sounds. Dr. John De Meurs
of Paris, first gave different forms to
notes representing their relative value
to one another in rhyme, about one hun-
dred and twenty-six years after Guido's
time. The names he gave to them were
the following:

The Large, equal to eight whole
notes. The Long, equal to four whole
notes. The Breve, equal to two whole
notes. The Semibreve, equal to one
whole note. The Minim, equal to half
a semibreve. The Crotchet, equal to
half a minim. The Quaver, equal to half
a crotchet. The Semiquaver, equal to
half a quaver. The Demisemiquaver,
equal to half a semiquaver. The Hemi-
demisemiquaver, equal to half a demi-
semiquaver. These names are not in
common use now in this country. The
names in common use are, the whole
note, half note, quarter, eighth, sixteenth
thirty-second and sixty-fourth, corre-
sponding with De Meurs' minim, crotchet,
quaver, &c.

There have been various improve-
ments attempted since the adoption of
Guido's staff and scale, with Le Marie's
and De Meurs' improvements consoli-
dated.

The English, four hundred and fifty
years after Guido's time, threw aside
three syllables of the above improved
scale, do, re, and see, and gave different
forms to the remaining; the name of
each note being known by its form, called
fa, sol, la and mi, which they called
"The Patent Note System." It was, un-
doubtedly, an improvement, in a back-
ward direction. It was brought to this
country, and pretty generally used some
forty or fifty years, but is now seldom
used, if at all.

In 1845, a Mr. Harrison, of the State
of Ohio, published a new system of mu-
sical notation, called "The Numeral
System." His musical staff consists of
two lines and one space, upon which he
writes his music. On the first line he
writes 1, and on the space between the
two lines, 2, 3, 4, 5, 6 and 7; and the
8th tone, which is 1 of the next octave
above, on the second line: each line
represents an entire octave of tones, and
the space between the two lines, the six
tones, between the two extreme tones
of an octave. This system, having
thrown aside the use of the old staff, has
no convenient mode for representing the
lettered scale of musical instruments,
and, for this reason, it was never used
by instrumental performers. It has se-
rious objections to the vocalist also, as
it has from six to eight of its tones in an
octave, on a parallel line, or space, with-
out having the relative degree of pitch
from one tone to any other in the octave.
It is true that the numbers themselves
represent their relative degree of pitch
to one another. The greatest objection
the vocalist can bring against this sys-
tem is in the utter unadaptedness of the
names of the numbers (from 1 to 7) be-
ing applied to the scale in music, to
make good musical tones,—for instance:
Let the vocalist sing over the numbers
from 1 to 1, thus—1, 2, 3, 4, 5, 6, 7, 1,
uttering each number distinctly; and
then sing the seven syllables—doe, ray,
mee, fah, soh, lah, see, doe. The result
will undoubtedly be a conviction, that
the numbers should seldom—if ever—be
used in the formation and cultivation of
a good musical voice.

Another "numeral system" was pub-
lished, in the same State, by a Mr. Hall,
shortly after the above system came
out. He uses the old staff, with seven
additional lines, making a staff with sev-
en lines in it. This system is more ob-
jectionable than the above, as seven lines
are more than the eye can distinguish at
a glance, without counting lines and
spaces. Both the above systems had a
very short musical existence, as they
really deserved; for they contained not
one point, in either, that could be called
an improvement.

(To be continued.)

A CINCINNATI paper, in speaking of
the overthrow of the rebel troops at At-
lanta, says that just before the Federal
troops entered the town, an Indiana com-
pany, almost worn out with the march,
were struggling along with very little
regard to order. Harrising up to his
men the captain shouted, "Close up,
close up! If the enemy were to fire
when you're struggling along that way,
they couldn't hit a cussed one of you!"
And the boys closed up immediately.

Tax form and ceremonies of politeness
may be dispensed with, in a measure, in
the relaxations and intimacies of one's
own fireside, but kind attention never

STAMP DUTIES.

Agreement or contract, other than
those specified in this schedule; any ap-
praisal of value or damage, or for
any other purpose; for every sheet or
piece of paper upon which either of the
same shall be written, five cents.

Provided, That if more than one ap-
praisal, agreement, or contract shall
be written upon one sheet or piece of pa-
per, five cents for each and every addi-
tional appraisal, agreement, or con-
tract.

Bank checks, drafts, or orders for the
payment of any sum of money whatso-
ever, drawn upon any bank, banker, or
trust company, or for any sum exceed-
ing ten dollars drawn upon any other
person or persons, companies, or corpo-
rations, at sight or on demand, two
cents.

Bill of exchange, (inland,) draft, or
order for the payment of any sum of
money, not exceeding one hundred dol-
lars, otherwise than at sight or on de-
mand, or any promissory note, (except
bank notes issued for circulation, and
checks made and intended to be forth-
with presented; and which shall be pre-
sented to a bank or banker for payment,) or
any memorandum, check, receipt, or
other written or printed evidence of an
amount of money to be paid on demand,
or at a time designated, for a sum not
exceeding one hundred dollars, five
cents.

And for every additional hundred dol-
lars, or fractional part thereof in excess
of one hundred dollars, five cents.

Bill of exchange, (foreign,) or letter of
credit, drawn in but payable out of the
United States, if drawn singly, or other-
wise than in a set of three or more, ac-
cording to the custom of merchants and
bankers, shall pay the same rates of duty
as inland bills of exchange or promiss-
ory notes.

If drawn in sets of three or more:
For every bill of each set, where the
sum made payable shall not exceed one
hundred dollars, or the equivalent there-
of, in any foreign currency in which such
bills may be expressed, according to the
standard of value fixed by the United
States, two cents.

And for every additional hundred dol-
lars or fractional part thereof in excess
of one hundred dollars, two cents.

Bill of lading or receipt, (other than
charter-party) for any goods, merchan-
dise, or effects, to be exported from a
port or place in the United States to any
foreign port or place, ten cents.

Bill of sale by which any ship or ves-
sel, or any part thereof, shall be con-
veyed to or vested in any other person
or persons when the consideration shall not
exceed five hundred dollars, fifty cents.

Exceeding five hundred and not ex-
ceeding one thousand dollars, one dol-
lar.

Exceeding one thousand dollars for
every additional amount of five hundred
dollars, or fractional part thereof, fifty
cents.

Bond.—For indemnifying any person
for the payment of any sum of money,
where the money ultimately recoverable
thereupon is one thousand dollars or less,
fifty cents.

Where the money ultimately recover-
able thereupon exceeds one thousand
dollars, for every additional one thou-
sand dollars or fractional part thereof
in excess of one thousand dollars, fifty
cents.

Bond for the due execution or per-
formance of the duties of any office, one
dollar.

Bond of any description, other than
such as may be required in legal pro-
ceedings, or used in connexion with
mortgage deeds, and not otherwise
charged in this schedule, twenty-five
cents.

Certificate of stock in any incorporat-
ed company, twenty-five cents.

Certificate of profits, or any certificate
or memorandum showing an interest in
the property or accumulations of any
incorporated company, if for a sum not
less than ten dollars and not exceeding
fifty dollars, ten cents.

Exceeding fifty dollars and not exceed-
ing one thousand dollars, twenty-five
cents.

Exceeding one thousand dollars, for
every additional one thousand dollars,
or fractional part thereof, twenty-five
cents.

Certificate.—Any certificate of dam-
age, or otherwise, and all other certifi-
cates or documents issued by any port
warden, marine surveyor, or other per-
son acting as such, twenty-five cents.

The Quincy Union.

All Letters relating to the business affairs of
the paper should be addressed to the Publisher.
TO SUBSCRIBERS.

No paper will be forwarded from this office unless
the subscription is paid in advance. All papers
discontinued when the subscription expires. The
rule will be strictly enforced.

CORRESPONDENCE.
Our friends everywhere, who may at any time
have knowledge of facts of local importance—
accidents, mining news, doings of public
meetings, improvements, curiosities, etc.—would
confer a favor upon us and our readers generally
by sending notices of the same to this office. Give
us facts in any shape, and we will take care of them.

Certificate of deposit of any sum of
money in any bank or trust company,
or with any banker or person acting as
such—
If for a sum not exceeding one hun-
dred dollars, two cents.

For a sum exceeding one hundred dol-
lars five cents.

Certificate of any other description
than those specified, five cents.

Charter Party.—Contract or agree-
ment for the charter of any ship or ves-
sel, or steamer, or any letter, memoran-
dum, or other writing between the cap-
tain, master, or owner, or person acting
as agent of any ship or vessel, or steam-
er, and any other person or persons for
or relating to the charter of such ship or
vessel, or steamer, or any renewal or
transfer thereof, if the registered ton-
nage of such ship or vessel, or steamer,
does not exceed one hundred and fifty
tons, one dollar.

Exceeding one hundred and fifty tons,
and not exceeding three hundred tons,
three dollars.

Exceeding three hundred tons, and
not exceeding six hundred tons, five
dollars.

Exceeding six hundred tons ten dol-
lars.

Contract.—Broker's note, or memo-
randum of sale of any goods or merchan-
dise, stocks, bonds, exchange, notes of
hand, real estate, or property of any
kind or description issued by brokers or
persons acting as such, for each note or
memorandum of sale, ten cents.

Conveyance.—Deed, instrument, or
writing, whereby any lands, tenements,
or other realty sold shall be granted, as-
signed, transferred, or otherwise con-
veyed to, or vested in, the purchaser or
purchasers, or any other person or per-
sons by his, her, or their direction, when
the consideration or value does not ex-
ceed five hundred dollars, fifty cents.

When the consideration exceeds five
hundred dollars, and does not exceed one
thousand dollars, one dollar.

And for every additional five hundred
dollars, or fractional part thereof, in ex-
cess of one thousand dollars, fifty cents.

Entry of any goods, wares, or mer-
chandise at any custom house, either for
consumption or warehousing, not ex-
ceeding one hundred dollars in value,
twenty-five cents.

Exceeding one hundred dollars, and
not exceeding five hundred dollars in
value, fifty cents.

Exceeding five hundred dollars in val-
ue, one dollar.

Entry for the withdrawal of any goods
or merchandise from bonded warehouse,
fifty cents.

Gaugers' returns, if for a quantity
not exceeding five hundred gallons gross,
ten cents.

Exceeding five hundred gallons gross,
twenty-five cents.

Insurance, (life).—Policy of insur-
ance, or other instrument, by whatever
name the same shall be called, whereby
any insurance shall be made upon any
life or lives—
When the amount insured shall not
exceed one thousand dollars, twenty-five
cents.

Exceeding one thousand dollars and
not exceeding five thousand dollars, fifty
cents.

Exceeding five thousand dollars, one
dollar.

Insurance, (marine, inland, or fire).—
Each policy of insurance or other instru-
ment, by whatever name the same shall
be called, by which insurance shall be
made or renewed upon property of any
description, whether against perils by
the sea or by fire, or other peril of any
kind, made by any insurance company,
or its agents, or by any other company
or person, the premium upon which does
not exceed ten dollars, ten cents.

Exceeding ten and not exceeding fifty
dollars, twenty-five cents.

Exceeding fifty dollars, fifty cents.
(Concluded next week.)

WOMEN FOR THE PACIFIC.—Harry Hig-
gins, an agent of the New England Emi-
grant Aid Society, recently arrived at
Portland, Oregon, with a view of ascer-
taining how many of the surplus women
of New England might be provided for
on the Pacific. The heavy propen-
dence of females in the Eastern States is
beginning to attract the attention of
the philanthropic, and an Emigrant Aid
Society has been organized for the pur-
pose of providing passages for a few
thousand unmarried women to the Pa-
cific.

Sometimes society gets tired of a man
and hangs him. Some times a man gets
tired of society and hangs himself.

QUINCY.
SATURDAY, MARCH 25, 1885.

SUPREME COURT.—The vacancy which will soon occur on the Supreme Bench by the expiration of Judge Sanderson's term, is causing the water in the political pool to move. An effort is being made in certain quarters to forestall public opinion. One paper advocates the re-nomination of Judge Sanderson. Another goes in for Judge Brockway, and nearly every paper has its favorite. We, in common with the rest have our preference, and we do hereby present for the consideration of the public, that able jurist, pure man and stern patriot, Warren T. Sexton, as a suitable candidate for the position.

We do this without ever having had any conversation with Judge Sexton on the subject and upon our own responsibility. We believe that of all the names mentioned in connection with the office, Judge Sexton's will compare favorably viewed in any point, for we think him scrupulously honest, and capable beyond a doubt.

Who will second our motion?

STRANGE.—Some of the citizens of Marysville have signed a petition praying for the removal of Post Master McCormick on the grounds of incompetency. Strange that they could not have discovered his incompetency long ago. That "dodge" is all booh. If there is a clique who are in favor of having another man appointed to the office, they should say so, but not undertake to cry down a good and efficient officer for the purpose of having the appointment given to another who happens to be a favorite, with them. Any one who knows Mr. McCormick knows that the charge of incompetency won't lay against him.

ATTENTION.—The attention of Settlers upon public land in Townships No. 28 and 29 is called to the following notice which we received from the Register of the Land Office, in Marysville:

U. S. LAND OFFICE,
Marysville, Cal., March 10, '85.
Notice is hereby given that the following described Township Plots are this day filed in this office, viz:
Township No. 29 North, Range 13 East.
Township No. 28 North, Range 15 East.
Settlers upon Lands in the above named Townships are hereby notified to file their claims in the Register's Office, at Marysville, within the time prescribed by law, otherwise they will lose the benefit of their claims.

A. J. SNYDER, Register.
CHAS. G. BOOKUS, Receiver.

COMPLIMENT TO OUR CIGAR DEALERS.—Yesterday, a letter was received from an old Californian, who is now on a visit to New York, by a cigar dealer in this city, directing him to ship him several hundred cigars for his own use while in the great emporium of the Atlantic. The writer states that cigars could not be obtained in that city "fit for a Chinaman to smoke." [Express.]

Git-out! Are you green enough to think no good Havannas can be procured in New York. The "old Californian" now on a visit, &c., "no doubt" patronized some perambulating cigar stand, where they sell for a dime a grab.

OBSERVED THE DAY.—The Alta says a number of Southern families in that city observed Jeff. Davis' appointed day of fasting and prayer—the 10th instant. Wonder if those same families won't clothe themselves in sackcloth and ashes one of these days, when Jeff. finds the last "ditch." Verily, "there will be wailing and gnashing of teeth" among that people.

USELESS.—One or two papers in this State are in favor of calling a special meeting of the Legislature for the purpose of approving the amendment to the Constitution abolishing slavery. In our opinion it will be a useless expense to the State, as the matter can be attended to at the next regular session of the Legislature.

TWO MORE REGIMENTS CALLED FOR.—A telegram from San Francisco, published in the Sacramento Union, says: "The War Department will call on California for two more regiments very soon. The order for raising the Ninth Regiment will probably be issued this week."

We hear of a young lady in town who is an large hearted that it has made her round-shouldered. [Exchange.]

It is a shame that no enterprising young man can be found in that town, who will share a portion of that burden.

TO RETURN.—We learn that Hon. T. B. Shannon intends to leave New York for this State about the 1st of April next.

UP.—Greenbacks are worth fifty-seven cents in San Francisco.

GO.—At last dates from the East gold was quoted at 174.

THE MINERAL LANDS.

In an article published some weeks since in this paper, we gave our ideas of the right of Congress to the mines, and opposed the scheme which looked to a tax of the products of mining in the hands of the miner, and also stated that if the Government needed a tax on the material products, it could be reached in a more economical and certain way, by assessing a per centage at the mint, and requiring all the precious metals to be passed through the mint. Now the subject has assumed a different phase, and the proposition is to "survey and sell the mineral lands," and as this project comes in an authoritative shape, it is well that it should be thoroughly understood and canvassed by those interested in the working of gold or silver mines.

During the forepart of February, the Chairman of the Committee on Public Lands (in Congress,) reported to the House a bill "providing for the subdivision and sale of the gold and silver lands of the U. S., for coinage, &c., and made a very able speech in favor of the bill, but as he at the close of his speech moved to recommend the bill back to the Committee, it will not be reached at the present session, but will undoubtedly be taken up next winter, and unless the matter is thoroughly understood, our mineral lands will be sold, and we shall have our present system destroyed and instead of being tenants of the Government by courtesy, shall assume an entirely different position.

The Chairman of the Committee, Mr. Julian, has a National reputation, is earnest and honest, and carries with him by reason of his earnestness and honesty, an immense influence in Congress, and we may as well understand at once, that if the bill is to be defeated, it must be by convincing him, and those who are with him in carrying out this scheme, that although their theories sound well, yet that practically, they will not work with anything like justice to the mines, and as he relies upon the judgment of several distinguished citizens for the soundness of his views, and among others mentions Horace Greeley, Salmon P. Chase, and others, we might retort by saying that Horace Greeley would call any honest miner who should go into the Tribune office and attempt to dictate how that newspaper should be carried on "daft." We will not say that he is crazy, but that he knows no more of the practical workings of mining than a baby, and however good his judgment may be on the theory, yet when it comes to the practical working his learning and talent must succumb to those who have for years worked the mines, and know by reality that no miner needs any other or greater protection for their possession than they now enjoy under State law.

We call the attention of our people to this matter. The columns of this journal can have no weight at Washington with the law makers, but we can call the minds of those interested in the matter to the point, and ask them to give their views on this subject to their representatives in Congress, so that the views of practical men may be heard when the question is called up for action next winter in Congress.

THE COPPER SMELTING WORKS AT GENESSEE VALLEY.

March 20th, 1885.
DEAR UNION:—The agency is over. We breathe free and clear. The Smelter is a glorious success, for which every person does, and every individual in this section ought to thank Providence. Your humble servant has waited and watched, and watched and waited for by these many months, hardly daring to hope, yet too sanguine to doubt the final success of the smelting works, doubtful because of various reasons which the recent success dispels; hopeful, because on its success depended the future of Plumas county, to say nothing of the chances of a plethora in my own pocket, and at last we know that the ore can be reduced to a regulus at a rate which costs but a trifle in comparison with the immense rewards.

Thursday of last week, after the two furnaces had been fired with the granite from near the Cosmopolitan mine, the furnaces were filled with Cosmopolitan ore, and after a run of sixty hours, produced two tons and a little over of 83 per cent regulus. This settles the matter, and from this oil interests in Genessee will be as valuable as Crescent, Rucka, or Guld and Curry. It is good to be here now. Long faces have given way to the future of long purses, and already some of us see ourselves driving up Montgomery street a triumph team, and an illimitable power of draft on the Bank of California.

The owners of the Smelter are already making preparations to erect four additional furnaces, and when they are completed, Chapman will stand A. No. 1 on the list of our mountain towns.

Several new buildings are being erected in the town; the saw-mill buzzes night and day, and D. P. permitting, we shall see a bright morning succeed our long night of darkness. Work is being vigorously prosecuted on the Pathfinder, Occidental, Gem, Cosmopolitan and other copper lodes, and one of these days I expect to call at Quincy, and invite you to take a trip Genessee ward in a fine buggy, behind a pair of fast trotting horses. Some considerable gold dust is coming in from Grizzly Creek.

Yours, Paquet.

LASSEN COUNTY ITEMS.

FIRE AT SUSANVILLE.—This embryo city was visited on the 18th inst., by a severe fire, although not as destructive as it might have been.

It commenced in the stable of Wm. Wentworth, opposite the Stewart House, and thence burning in an easterly direction, soon destroyed Smith's house, Dr. Howe's office, Friedman's store, Waterland's tailor-shop, Moody's drug store, Peysers store and Corpo's house. The losses are about as follows: Wentworth, \$3,000; Friedman, \$3,500; Smith, \$1,200; Corpo, \$1,000; Waterland, \$1,000; Moody, \$3,000; Peysers, \$2,500. Total, \$15,200. To this amount must be added the losses of a number of individuals who had horses in Wentworth's livery stable, among whom we only learned the names of a few. Dickinson & Co. lost the celebrated race-horse, "Beauregard." Wm. V. Kingsbury, of Smoke Creek lost two horses. Heaps & Hale lost two, and Mr. Williams lost one. There must have been at least twelve horses burned to death, as not a single one escaped and the stables were nearly all occupied. The citizens worked like men, and stopped the fire at Tarrant's store. It is the intention to rebuild with fire-proof buildings, on the burnt ground.

BOISE BASIN.—A new company has been organized, and intends starting a line of coaches from Chico to Boise river, via Susanville, Humboldt, &c. From one who is interested in the matter, we learn that the land travel is a considerable distance shorter from Chico to Boise, on the new route, than it is from the head of navigation in Oregon, and that the trip can be made in nine days from Chico.

They are now stocking the route, and intend making the first trip on the 1st of April. To advance the work, Hon. John Bidwell had been at work in the mountains on his road, shoveling snow, &c., and had so far completed his work as to make the road quite good, the Gen. having arrived at Susanville during the latter part of last week. If this route is what is claimed for it by its friends, it will control all the freight and travel from California to the westward, and will add wonderfully to the prosperity of the towns on the route.

SHOOTING.—The man Walker, who was shot at Junesville, was shot by a man named Bronty. Bronty was examined before Squire Hutchings, and discharged. The act being done in self defense. Walker was a desperate man, and was striving to shoot Bronty, who caught the pistol and prevented the shot from being fired, and at the same time discharged his own pistol, the ball taking effect in Walker's stomach. Walker lived about twenty minutes after being wounded.

COUNTY COURT IN LASSEN.—At the March term of this court there were three civil cases on appeal, one case continued for the term, and two dismissed.

The Grand Jury found eleven indictments. Ten of the defendants were arraigned, and the indictments against them were quashed on demurrer. No arrest was made on the eleventh defendant.

OSWART.—That a new Union paper is about to be established at Susanville.

INDIAN DEPREDACTIONS.—A gentleman, recently from Honey Lake Valley, informs us that the Indians have been committing depredations in Secret Valley and the northeast portion of Honey Lake Valley. They stole not long ago, fifty head of horses from Jack Bird, of Honey Lake, twenty-five mules from a man named Wilkins, of Beckwornth Pass, and horses from various other parties; also, one hundred and thirty head of the finest beef cattle in the country, belonging to the Tryon Brothers, of Secret Valley. The troops have been removed from Honey Lake Valley, and the Indians think they can act with impunity. There is nothing left for the settlers to do but to protect themselves as best they may. It is supposed that these Indians are remnants of outcasts from the Pit-Rivers, Pit-River and Snake tribes. They have in their possession a band of about fifteen hundred horses, besides other stock. It is estimated that they have property to the amount of four or five hundred thousand dollars. [Grass Valley National, March 13th.]

We cannot understand why it is that the commander of the forces on this coast does not keep a company of soldiers at the Government station on Smoke Creek. One company of soldiers can do as much good at that post as at any other in the State.

JOHN BIRNELL.—We had the pleasure of seeing this gentleman at Susanville last week, and his earnest work for the advancement of the people of this section, is proof that he has not forgotten the duty of Congressman in enjoying the honors of the office. He is now engaged in opening and fixing the Chico road for the use of the new company, who intend running a line of stages to Boise.

WIRTS DOWN.—From the Appeal we learn that an Eastern news has been received during the past three or four days.

THE CRESCENT QUARTZ MILLS, & CO.

March 20th, 1885.

MR. EDITOR:—Knowing your desire to keep your readers posted on all matters pertaining to the resources of the county, and their development, I propose to embody in a brief, epistolary form, some facts relative to the Crescent Co., which I have never seen in your columns, and which may not be less interesting at the present time, from the fact that this company have just struck their lode in the bottom of their shaft, sixty feet below their present level, thus establishing beyond a peradventure the permanency of their mine, and proving it to be, for many years to come, one of the institutions of the county. To those who have the welfare of the community at heart, and who are aware of the amount of good exerted by this company (which, I am satisfied is greatly underrated,) this information will be received with gratification totally unmixed with envy.

The Crescent Co.'s mine comprises three several lodes. The Crescent proper, from which several rich "runs" have been made, but which has been comparatively little worked; the Horse-shoe lode, which is very rich, and running diagonally across the Horse-shoe. These three lodes, with their various branches and spurs, make a perfect network of quartz, and in following the various windings of the tunnels and shafts, "Put" would have been lost in perplexity but for the presence of the obliging foreman of the mine, Tommy Peord, who kindly accompanied him through all its intricacies, explaining clearly the connections of its different parts. The Horse-shoe lode is now opened for a distance of about six hundred feet, (the company claiming 2800 feet,) which will average, I should think over eight feet in thickness; and above the first or present level, Tommy estimates he has sufficient quartz to keep the mills running, with their present machinery, over two years. When we take into consideration the vast amount of rock now being opened from the second or lower level, together with the other lodes, and that 2200 feet yet remain unprospected, your readers can judge for themselves of the extent of this company's resources.

All the quartz is taken from this mine and crushed in the mills indiscriminately, good, bad and indifferent. There is no "culling" of rock here. To facilitate the crushing, the stamps, (24 in number of 850 lbs. each) are given a "drop" of fourteen inches, two inches more than I have ever seen elsewhere. Steam is kept up to 70 pounds pressure, and I venture the assertion that no mill in the State crushes more rock, equally hard, with the same amount of machinery.

It is estimated that over 2000 cords of wood are consumed annually by the two engines, (one engine being attached to the hoisting works and pumping apparatus.) These works are under the superintendence of a skillful engineer, Mr. J. Y. Collins.

The number of men employed directly by the company, is about seventy-five; and it is pleasing to note the order, harmony and good feeling which appears to prevail throughout this establishment. This speaks well for the management of the company's agent, Mr. Wm. A. Bolinger, who, (by the way) is quite a favorite with the men. ("Put" would here state, lest he be open to the charge of sycophancy, that he intends to remain strictly *inco*. Moreover, he trusts he is not one of those who would "cook the pregnant hinges of the knee, when their trusty axe, Pat feels independent as a king, and asks no favor but such as a stout arm and willing hand, may rightfully demand.)

I had intended to mention in this letter, some of the plans of the company for the coming season; something of the "mine" and the "peoples," also, some of Pat's unfortunate experience among the ladies, owing to the shocking mendacity of some of his friends, etc., etc., but I have already exceeded the proper limits of a letter, I suppose, and accordingly "subside." Should this prove acceptable, I may come again.

Yours, &c., Per.
[That last paragraph suits us. "Put," and we shall hold you responsible if you don't "come again."—Ed.]

A PROPHECY.—The Cal. Farmer prophesies at on the 22d of April greenbacks will be worth 75 cents on the dollar in gold.

Marriages.

Coughs and Colds.

The sudden changes of our climate are sources of Pulmonary, Bronchial and Asthmatic Affections. Experience having proved that simple remedies often speedily when taken in the early stages of the disease, recourse should at once be had to "Bronchial Troches," or Lozenges, let the Cold, Cough, or Irritation of the Throat be ever so slight, as by this precaution a more serious attack may be effectually warded off. Public Speakers and Singers will find them effectual for clearing and strengthening the voice. Soldiers should have them, as they can be carried in the pocket and taken as occasion requires.

Summons.

STATE OF CALIFORNIA,
County of Plumas.
In the District Court of the Second Judicial District.
Hough & Bro., vs. J. A. Whitmore.

Action brought in the District Court of the Second Judicial of the State of California, in and for the county of Plumas, and the complaint filed in said county of Plumas, in the office of the Clerk of said District Court:

The People of the State of California send greeting to J. A. WHITMORE, Defendant:

YOU ARE HEREBY SUMMONED TO APPEAR in an action brought against you by the above named Plaintiff, in the District Court of the Second Judicial District of the State of California, in and for the county of Plumas, and to answer the complaint filed therein, (a copy of which accompanies this summons) within ten days, (exclusive of the day of service,) after the service on you of this summons—if served within this county; or, if served out of this county, but within this Judicial District, within twenty days; or if served out of said District, then within forty days—on judgment will be taken against you according to the prayer of said complaint.

The said action is brought to recover judgment against you for the sum of four hundred and fifty-two 24/100ths dollars, alleged to be due to plaintiffs, from you, on a certain promissory note dated September 22d, 1883, and on a book account for ranching, feeding stock, horses, &c., and for four provisions, &c., sold by plaintiff to you. And you are hereby notified, that if you fail to appear and answer said complaint as above required, the said Plaintiff will take default and judgment by default, as prayed for in said complaint.

Given under my hand and the seal of the District Court of the Second Judicial District of the State of California, this 25th day of March, in the year of our Lord One Thousand, Eight Hundred and Sixty-four.

W. W. KELLOGG, Clerk.

LOCAL ITEMS.

Correspondence.—Thanks to our friends who have favored us with communications this week.

CRESCENT.—The Crescent Co., at Indian Valley, cleaned up about \$3,000, for last week's run.

SKELTON WORKS.—The Skelton works, at Genesee Valley, were "fixed up" again yesterday.

FOR WAGON.—A large amount of grain, from Indian and American Valleys, is being shipped to the Washoe market.

CROSS.—The winter term of the school in this district will close on Friday next. A public examination will be given on Friday afternoon, the 1st inst.

POLICE.—Among the list of persons selected by the Common Council of Virginia, as Policemen, we notice the name of Benj. L. Higbee, formerly of Smith's Bar, in this county.

ROAD TAX.—We hope all of our citizens will "pungle" when called upon by the Road Tax Collector to pay their road tax. A portion of the roads, in this valley, need repairing, and it can not be done, unless the Collector has the funds to pay for it, or some of our citizens do it "free gratis" for nothing, and get no thanks, in the bargain.

STRAVE IT.—The Premium Quartz Company have struck the ledge in their tunnel, and the quartz looks and prospects well. The tunnel is about two hundred and seventy-five feet in length, and the company intend to run it some distance farther upon the ledge for the purpose of thoroughly prospecting the rock, and if satisfactory, will erect a mill during the coming summer.

MISERY.—We are informed that one day last week, a man and his wife started from Poorman's Creek, with the intention of going to Whiskey Creek, in Sierra county. The man having business in a cabin on the road, went in, and his wife concluded to wait on a short distance alone. The man, after he came out, started on after his wife, but did not overtake her, and thinking that she was trying to reach Whiskey Creek in advance of him, he kept on, and when he arrived at that place, he found, to his surprise, that his wife had not reached there. He immediately started back, but did not succeed in finding her on the road. The alarm was immediately given, and a large party of men from Poorman's and vicinity started out to search for her. At the time our informant left, they had not succeeded in finding any trace of her.

NORTH FORK.—Orion & Harris' claim, near "Carriboe," is paying them from \$8 to \$10 per day, to the hand. The "Brannan and Arto" Company have commenced work on their claims, and if hard work, perseverance and high hopes will make the claims pay, the company will realize a fortune from them during the present season. Morris & Co., Osborne & Co., Johns & Co., and several other companies, are "fixing up" with the intention of working their river claims this season. One of the above-named companies took out over \$50,000 from their claims last year, and have plenty of the same kind of ground to work this year, that they had last. There will be more men, and more mining done on the North Fork the coming season, than there has been for several years. The claims on Dutch Hill, are being worked, and are paying as well as ever, averaging from \$10 to \$40 per day to the hand.

NOMADY TO BLAME.—The mail arrived here yesterday afternoon, or rather the mail-bag did, and there were two papers in it. We would like to (satisfy our own curiosity) to know who has the right to sort the mail matter for this section of country, and send a part, and then let the balance lie over until such a time as the carrier chooses to carry it through. And if we can find out at which office it is done, we will promise to publish, for the benefit of the postmaster, the law in regard to his duties. We would prefer to have but one mail per week, as the contract calls for, provided, the whole mail is brought, than to have it reach here twice a week with only a small portion of the mail matter. It may be that some one has a "good thing" on Uncle Sam, we haven't, and if any thinks we ought to keep still, and not find a word of fault in regard to our mail facilities, let them undertake to publish a paper, and have the mail arrive the day before publication; go to the office and find but two exchanges, as we did yesterday, (one of which was the Dutch Flat Enquirer of March 16th, the other, the Express of the 22d) and if they can keep from feeling "wretched," they can do better than we can. And we will inform "all hands and the cook" that we shall have our say in regard to this mail route, every time we choose. If any of the parties on the route are negligent, we shall say so; if they do their duty, they will have no cause to complain of us, or of their mail.

AMERICAN VALLEY.—A recent ride around this beautiful valley, developed the fact that the Spring-harvesting, birds singing, farmers ploughing, and nature and the husbandman unite in making it very pleasant. More land is being cultivated this season than ever before. New land is being broken up, while that which has before been cultivated is being again brought under the influence of "seed time and harvest." The old log and coral fences of 1852 and '53, are giving way to the neat board fence. Picket fences are being built around the dwellings. Roses and vines are being cultivated, and the people generally are following out the instruction of the poet, and are "making home beautiful."

We are glad to see so much interest displayed in fruit raising. It used to be held that nothing would grow here in the shape of fruit; yet if any one will go into the orchard and nursery of D. B. Case, they will find apple trees, growing as thickly as they grow in any country. Cherries, peaches, pears, plums, &c., grown successfully, and, as time elapses, the misapprehensions of the earlier settlers, an orchard is becoming as much a part of the farm, as it is in any of the Eastern States.

The saw mills are all busy, and a ready demand for all the lumber saved, is reported by mill men. In fact everybody seems to be snuffing the reviving air of the "good time coming," and the general revival of industry and energy augurs well for the future of this beautiful valley.

We have heard of several companies who intend piling forward prospecting on the numerous gold-bearing quartz ledges around the valley. Enough is known of these ledges to warrant a belief that the most of them will pay handsomely for the working, and with energy and well directed prudence, they may "be happy yet."

FLOWING.—The farmers in Indian Valley are all at work, plowing, fencing, and preparing their lands for putting in their crops.

STAMPS.—A portion of the law in regard to stamps on documents, &c., is published on the first page. It will be concluded in our next.

MUSIC.—Read the communication of Mr. J. W. Snyder, published on the first page. It will repay perusal.

BURNING.—The Indian Valley Co.'s mill commenced running again one day this week. It is now a truly-stamp mill.

RUNNING.—The Eureka mills commenced running on Monday last. Mr. Reynolds, of San Francisco, is acting Superintendent of the Eureka works during the absence of Mr. T. E. Farish.

FIRE.—On Friday of last week, the cabin of S. F. Nifer, on Rush Creek Flat, East Branch, was destroyed by fire. Most of the furniture was saved. Loss, trifling—no insurance.

PARDONED.—John Morrow, who was sent to San Quentin, in this county, for horse-stealing, has been pardoned by the Governor, and is now at liberty.

AT WORK.—The owners of hill and bank claims, on Nelson, are now at work, with plenty of water and good prospects for a long season's work. The Nelson Creek flume is open and running full of water.

DROWNED.—On Tuesday night last, a man named Louis Solomon, in attempting to cross the East Branch, in a boat, near Bachelor's Ranch, was drowned. He left the cabin of a company of miners, on Dead Wood Bar, about eight o'clock in the evening, and the next morning his body was found lodged in some bushes about a half a mile below the place where he attempted to cross. The boat, a small skiff, was also found near him. It had been capsized, and was bottom side up, when found. Deceased was a native of France, and about 40 years of age. He has resided in this county for several years.

12-MILE BAR AND VICINITY.—Several new claims are being opened on 12-Mile Bar. The miners on Rich Gulch are at work, with plenty of water and good prospects for a long season's work. On York Flat several companies are at work, and all of the claims are paying well. One company are at work opposite the flat digging a race. They intend to have it completed so as to turn the river, and work the bed of the stream during the summer. We learn that Mr. W. Richards, who was severely injured in his mining claim last Fall, and who has not been able to leave his bed since that time, as his lower limbs have been paralyzed, is now recovering very fast.

GAME LAW.—On the 15th inst., the law passed by the Legislature for the protection of certain kinds of game in this State, went into effect, and remains in force till the 15th day of September. During that time it is unlawful to kill or expose for sale any "quail or partridge, mallard duck, wood or summer duck, elk, deer or antelope." The penalty for violating this law is a fine of twenty-five dollars for each offense, one-half of which goes into the county treasury for the benefit of the school fund, and the other half to the informer. The law, forbidding the killing of trout, is also in force at the present time. Sportsmen should take notice, or they may get "caught" themselves.

SCHOOL EXHIBITION.—The winter term of the school in Pioneer District closed with an exhibition yesterday (Friday) evening. The exercises of the evening consisted of declamation, dialogues, singing, &c. As a school exhibition, it was very creditable, and reflects great credit on Mr. Meylert, the teacher. The little ones all did well, but we can only mention the names of a few who deserve especial praise: Miss Katy Yates, Miss Lizzie Carl, Miss Fanny Church, Master Geo. W. Alford, Master W. S. Church, Master Willie Thompson, Master W. B. Madden. Old folks and little ones enjoyed themselves first rate. Quite a delegation from Quincy attended, and, with the patrons of the school, of Pioneer District, made a full house.

SAWPIE FLAT.—John Rudge, while working in the Monitor claims, on Friday, the 17th inst., was severely injured by a cave. He is badly bruised, but hopes are entertained of his recovery. The general news here is of rather a light, airy character. Water, for washing dirt, has not yet made its appearance, and there are no mining intensions to chronicle. The 17th of Ireland, while out making calls, dropped in at Sawpit, of course, and presented us with an extra fine, a dance in the evening, that was in all respects most lovely, a plenty of whisky, and lots of other fine things, too numerous to mention.

The Most Ancient, Honorable and Christian Order of E. C. V., held their first meeting at Sawpit, on Saturday evening last. The good work seems likely to prosper here. The seed is sown on a prolific soil, and there is not a shadow of a doubt but that the principles of Brotherly Love, and all of that sort of things, will spring up like pumpkins vines "away down East," and spread like the preacher's Green Bay hose.

The good people of Sawpit have, again awakened to the importance of a school. Under the auspices of Mr. John Youle, a school will be opened in the old Temperance Hall, at Richmond Hill, probably about Monday next. There are about twenty-five juveniles at Sawpit, more or less, and their name is Legion. They are excellent judges of fast "dope." Or now shows they can discount the time made by Col. Crockett's lightning in a potato patch, and beat it easy—offity Hamilton in his biggest flying feat—jump higher, quicker, and farther than ten thousand frightened kangaroos, and dive deeper than Sam Patch ever dared to do. I think an equal amount of energy, well directed in the channel of letters, must lead to the most lucrative results.

The Onion Valley snow shoe races went off yesterday with a win. The Jockey Club had given notice that a race would come off for a purse of sixty dollars, and a large crowd assembled to witness the sport, but found themselves so completely disappointed, that about a dozen men, who do you mind now, just after having celebrated St. Patrick's Day, took possession of Sonny's bar-room, on Saturday, and in honor of St. Bridget, opened a fashionable bar, and hat shop, with a medical institute attached. The way they dressed, shaved, shampooed and nursed the poor patients that fell into their hands, was a caution to all poor sinners generally. Saturday night the work went on, and Sunday found our doctors still at their post, and too busy to attend to snow shoe races. John Barleycorn had everything his own way, and was champion of Onion Valley, the snow shoe races, and all. OCCASIONAL. Sawpit, March 20, 1865.

Medical Advice.

Without intending to participate any from among the many distinguished physicians of this city, we cannot avoid referring to the successful treatment of cases which have come under our observation, by Dr. W. K. Doherty, No. 521 Sacramento street, San Francisco, and the gratitude felt towards that gentleman by those who a short time ago, were tottering to the grave, and are now in the enjoyment of health and happiness, freed alike from their poisonous affections, and the equally deadly effects of vile drugs. That their gratitude was sincere, we have not the slightest doubt, as was also their regret for having wasted so much of their time and money on the old school physicians, without a particle of benefit resulting therefrom. We do not think we could better consult the public good than by advising all who are afflicted to give Dr. Doherty a call.—San Francisco News.

DR. W. K. DOHERTY'S

Dr. C. W. MOORE'S MEDICAL & SURGICAL INSTITUTE

Commercial street, a few doors below Kearney Street.

ATTENDING AND RESIDENT PHYSICIAN,
C. W. MOORE, M. D.,
Late Surgeon, U. S. A., Quarantine Physician at New Orleans and Boston, Lecturer on Morbid Anatomy and Diseases of Women & Children, Member of Massachusetts Medical Society, &c.

DR. MOORE WOULD RE-
spectfully inform the people of California that he has established an Institute for the

CURE OF DISEASES,

WHETHER CHRONIC OR ACUTE.

AT 641 COMMERCIAL STREET.
A few doors below Kearney, where he may be consulted at all hours.

DISEASES OF THE UTERINE AND OVARIAN FUNCTIONS
Characterized by irregular, suppressed or painful menstruation, pain in the sides and back, sensation of weight in the pelvis, weakness, nervous headaches, leucorrhoea, or whites are treated on scientific principles and a prompt and permanent cure effected.

NERVOUS AFFECTIONS.
Such as neuralgia, paralysis, giddiness, dimness of vision, &c., will receive special attention.

DISEASES OF THE SEXUAL ORGANS.
Male and female, are treated with all the skill and appliances which modern science has made available. Nervous drugs and narcotics, which are so often administered for venereal and other diseases, are entirely discarded, and a few days only are required to accomplish a perfect cure.

SECONDARY AND HEREDITARY AFFECTIONS.
Scrofula in all its manifold forms, Dyspepsia, Emaciation, &c., are treated with certainty and unflinching resolution, speedily expelling all corrupt humors, and imparting a healthy tone to the blood, regulating the secretions, and restoring the vital powers to their normal condition.

Twenty years practice in different parts of the world, has given the doctor advantages possessed by few, and his remarkable success warrants a promise of effectual cure. Medicines with full directions will be sent to any part of the State on receipt of letter describing symptoms.

An Infirmary is connected with the establishment, where patients who desire more board and constant nursing, may reside during their sickness, thus avoiding the inconvenience of a hotel. Kind and attentive nursing will be employed, and no means will be left untaken to give full satisfaction. Consultation free.

TO THE LADIES.

Females in trouble, or afflicted with disease, are respectfully invited to call on Dr. MOORE and consult him about their troubles. His uniform success in his treatment of female suppression and kindred diseases, is a sufficient guarantee of his scientific attainments. Let no false delicacy prevent you, but call at once, and save yourself from future suffering and misery. Consultations are confidential, and his offices are arranged for the strictest privacy.

C. W. MOORE, M. D.,
641, Commercial street, San Francisco.

THOMAS HUGHES,
Dealer in all kinds of
GENERAL MERCHANDISE,
SODA BAR,
EAST BRANCH OF FEATHER RIVER.

THE HOTEL attached to the Store, will be kept open for the accommodation of the public. 25-1
"Unquestionably the best sustained work

of the kind in the world."

HARPER'S NEW MONTHLY MAGAZINE.

[Critical Notices of the Press.]
It is the foremost Magazine of the day. The friends never had a more delightful companion, nor the tallion a more enterprising friend, than Harper's Magazine. (Methodist Protestant, Baltimore.)

The most popular Monthly in the world.—[New York Observer.]

We must refer to terms of eulogy to the high tone and varied excellence of Harper's MAGAZINE—a journal with a monthly circulation of about 170,000 copies—in whose pages are to be found some of the choicest light and general reading of the day. We speak of this paper as an evidence of the American People; and the popularity it has achieved is merited. Each number contains fully 144 pages of reading matter, ably illustrated with good cuts; and it combines in itself the ray monthly and the more philosophical quarterly, blended with the best features of a daily journal. It has great power in the dissemination of the best pure literature.—[Traveller's Guide to America, London.]

The volumes bound constitute of themselves a library of miscellaneous reading such as can not be found in the same compass in any other publication that has come under our notice.—[Boston Courier.]

California Subscriptions.
1865.

Being desirous of extending the influence of their publications in this section, the Publishers of Harper's Magazine and Weekly will pay particular attention to subscription from the PACIFIC STATES, and subscribers may rely upon the prompt arrival of their Magazines by mail.

The Publishers have perfected a system of mailing by which they can supply the Magazine and Weekly promptly to those who prefer to receive their periodicals directly from the Office of Publication.

The postage on Harper's Magazine is 24 cents a year, which must be paid at the subscriber's post-office.

Terms.
HARPER'S MAGAZINE, one year.....\$4 00.
An Extra Copy of either the Magazine or Weekly will be supplied gratis for every Club of Five Subscribers at \$4 00 each, in one remittance; or Six Copies for \$20 00.

Back numbers can be supplied at any time.
A Complete Set, now comprising Twenty-nine volumes, in neat cloth binding, will be sent by express, freight at expense of purchaser, for \$2 50 per volume. Single numbers, by mail, postpaid, \$2 00. Cash cases, for binding, 25 cents, by mail, postpaid. Address

WATT'S NERVOUS ANTIDOTE!!

A Certificate of Cure that Every One Should Read!!

SAN FRANCISCO, AUGUST 1st, 1864.
MESSRS. CRANE & BRIGHAM, DRUGGISTS—Cor. of Clay and Front Streets:

GENTLEMEN:—I notice an advertisement in the newspapers, that you are the Agents for WATT'S NERVOUS ANTIDOTE, and being satisfied that there are many persons in this State that are suffering with RHEUMATISM, that would gladly avail themselves of any preparation that would cure them, I thought and I owed to suffering humanity, to make a statement of my case.

Some eight years since, while working upon a Bar, I was severely injured, in attempting to lift a car wheel, being in a promise perspiration at the time, and being compelled to go home without a coat, I took a severe cold, which eventually brought on the Rheumatism, which kept me confined to the house a large portion of the time for several years. I consulted most of the leading physicians of San Francisco, and in this city, visited the Warm Springs at Alameda, tried the various compounds that are advertised as cures for this terrible disease, but all to no purpose. My complaint, instead of getting better, grew worse, my left leg became partially paralyzed, the pains in the back and chest became so intense, that I often wished myself dead. I could not sleep more than two hours of a night, my appetite failed me, and I grew emaciated day after day, until finally, I made up my mind that my troubles would soon be over. While walking down Clay Street one day, in 1862, I met a gentleman with whom I was formerly acquainted. He enquired the nature of my disease, and upon being informed, he stated that he had several years before been similarly affected in Washington, and that he had cured himself by the use of WATT'S NERVOUS ANTIDOTE. He then handed me a bottle of the medicine, and I determined to give it a trial. I procured a half dozen bottles, and before I had used two of them, I could attend to my work, my appetite had improved and I felt considerably easier. Encouraged by the apparent improvement, I determined to persevere in the use of it, as it was my only hope. "I did so, and used it at intervals for two years. I found its effect slow but very sure, until now, I am entirely cured. HAVE NOT HAD AN ATTACK OF RHEUMATISM FOR SIX MONTHS. My back is as strong and as well as ever, my leg is as good as new, my appetite altogether too good for my pocket, and I am physically as strong as I was ten years ago, and feel myself able to whip any man of my size and age in the city.

Hoping that this plain statement of my sufferings and ultimate cure will fall under the eye of some one similarly afflicted that he may be benefited by my experience.

I am, Gentlemen, Your most obed't.

NOTE.—The gentleman who wrote the above and to his name to appear in the paper, but it will be given to those who wish to see him personally.

WATT'S NERVOUS ANTIDOTE is for sale, Wholesale, by CRANE & BRIGHAM, Cor. of Clay and Front Streets, San Francisco, and by respectable Druggists everywhere. 43-3m

LIVERY STABLE,

Quincy.

JOHN MOORE, Proprietor.

LILLIE'S LOCK OPENED

In One Minute.

New York, September 2, 1864.
F. TILMAN, Esq., 318 Battery street, Bet Commercial and Clay, San Francisco.

DEAR SIR: WE NOTICE AN ADVERTISEMENT in your daily papers respecting the "security" of the "Lillie" lock. We are aware that you well understand this lock, and, of course, will not allow yourself to be annoyed by such representations. We have just sent for one of our men from the factory, and he in our presence, opened one of Lillie's best safe locks, after it had been locked and the combination turned on

By One Blow of the Hammer

Against the knob on the outside, and thereby breaking the cast iron bolt inside.

The whole time occupied in opening the lock was about ONE MINUTE. We send you this lock that your friends may not be deceived by false representations, etc.

Respectfully, etc.,
A. E. TILTON,
WM. MCFARLAND.

NO PRACTICAL

Lock Picker or Thimble Rigger.

Required to
OPERATE THE SAID LILLIE LOCK.

Any parties desirous of seeing the above mentioned lock, its insecurity and easy mode of opening the same, can call at

318 Battery Street, San Francisco.

GLOUCESTER, March 25th, 1864.
MESSRS. TILTON & MCFARLAND,
Sole Manufacturers, Boston, Mass.

Gentlemen: From representations made by Mr. Lillie, I was induced to purchase of him one of his

So Called "Fire Proof Safes."

The Quincy Union.

SUNBEAMS.

Brightly through my window glancing,
Golden sunbeams flit and shine,
Glowing, flowing, spirits dancing,
They are heralds, thine and mine.

First this morn' thy lips caressing,
Then they flitting come to me,
To my lips thy kisses pressing,
As sweet tokens sent from thee.

What though deserts should divide us,
What though snowy peaks may rise,
Kindly nature doth provide us
With a messenger that flies.

On thy couch these sunbeams stealing
Pressed thee in their amorous play,
Now to me with bliss revealing,
Warm my heart with fervid rays.

Dear one absent, true and loving,
Thou in thought art still with me,
On these golden sunbeams roving,
I send kisses back to thee.

Why is a baby's mouth like a portion
Of the heavens? Because it is in the
milky way.

Why is a broken chair like one who
despises you? Because it can't bear
you.

One of the finest specimens of a la-
conic speech is that of Rochefort's—
"If I advance, follow me; if I fall,
avenge me; if I slinch, kill me."

The beggars in Richmond do not ask
for pennies. Their petition is put thus:
"Will you give me five dollars to buy a
loaf of bread?"

The Minnesota Legislature has passed
a bill punishing strikers who interfere
with workmen, with \$100 fine and six
months imprisonment.

The War Department is said to be
in possession of two hundred and five
flags—battle, State and regimental—
captured from the rebels in battle during
the war.

An Expert.—Samuel Bierles, alias Slipper,
San, who was sent over to Santa Quentin
from Sacramento for burglary the other day, claims to
have been in thirty-seven different jails during
his life. He expresses the opinion that the Sacra-
mento jail is the meanest one of the lot.

Art Boy.—A schoolboy having good
naturally assisted another in a difficult
ciphering lesson, was angrily asked by
the teacher, "Why did you work his les-
son?" "To lessen his work," replied
the youngster.

There is a project on foot, likely to
meet with success, involving the emi-
gration of one million persons from Ire-
land to Spain, for the purpose of settling
there. The Spanish cabinet have entered
into negotiations respecting it.

An "emigrant" who had been rather
roughly dealt with by the "wild-cat"
gentry of Virginia City, thus expresses
his opinion of that lively place: "If
Gabriel happens to light at Virginia
City, there'll be no resurrection, for they
will swindle him out of his horn before
he can make a single toot."

The rumor that horse flesh is exten-
sively used as an article of food in Paris
is not without truth. There is a pro-
posal before the Government to permit
its public sale for this use in the French
capital. Large quantities are weekly
distributed to the poor, and the applica-
tions for it are said to be so numerous
that all cannot be satisfied.

JOSH BILLINGS ON SHANGHAI.—The
Shanghai reuter is a gentle and speaks
a forin tang. He is bilt on piles like a
Sandy Hill crane. If he had been bilt
on 4 legs, he would resemble the per-
uvian lama. He is not a game animal,
but quite often comes off sekund best in
a ruff and tumble fite, like the inguis
that kant stand sivillazashun, and are
fast disappearing. The roest on the
ground similar to a mud turtle. Tha
often go taw sleep standing, and some-
times pitch over, and when they dew,
tha enter the ground like a pickaxe.—
Tha food consists ov korn in the year.
Tha ero like a jackass troubled with
broonskeesucks. Tha cat az much to
onct as a districk skule master, and gin-
erally sit down rite off tew keep from
tumbin over. They are dreadfull unhandy
to kook, you kant get them all into
a potash kittle to onct. Tha female
reuter lays an egg as big as a kokernut
and is sick for a week afterwards, and
when she hatches young shanghai she
has to broed them standing, and she kant
kiver up 3 ov them, the rest stand around
on the outside like boys aroun a circus
tent, gitting a peep under the canvas
whenever tha kan. Tha man who just
brought the breed into the country ought
tew own them all and be obliged to feed
them on grasshoppers, caught bi hand.
I never owned but one, and he got
choaked tw death bi a kink in a kloose
line, but not till he had swallowed eigh-
teen feet of it. Not enny shanghai for
me if yu pleas; I would rather board a
traveling kolporter, and as for eating
one, give me a biled owl rare dun, or a
turkey buzzard, toasted hole, and stuffed
with a pair of ingin rubber boots; but
not enny shanghai for me; not enny
shanghi!

New Advertisements.

DR. J. M. MOREENO'S Medical & Surgical INSTITUTE, San Francisco.

NO. 619, KEARNEY STREET.
Corner Commercial Street.
Established in 1862 for the permanent cure of all
Private and Chronic Diseases, and for
the Suppression of Quackery.

DR. J. M. MOREENO,
Formerly of Valparaiso,
Attending & Resident Physician.

PARTICULAR ATTENTION PAID TO THE
treatment of Diseases of Women and Children.
Communications strictly confidential, and all cor-
respondents promptly answered. Consultations by
letter or otherwise free.

To those who are Afflicted.
DR. J. M. MOREENO returns his sincere thanks
to his numerous patients for their patronage, and
would take this opportunity to remind them that
he continues to consult at his Institute for the cure
of all forms of Private Diseases, such as Syphilis,
Gonorrhea, Nocturnal Emissions, and the conse-
quence of self abuse. In the first stages of syphilis
the disease is cured in a few days without incon-
venience to the patient, or hindrance to his business.
When a patient by neglect or improper treatment, has developed the sec-
ondary symptoms of syphilis, such as painful swell-
ings on the groins, or ulcers in the throat and nose,
which if not checked, destroy the soft parts and
cause the bone to mortify, separate and come
away, leaving the sufferer an object of ridicule to be-
hold, or when blotches and pimples break out on
the skin, or when he has painful swellings upon the
bones, or when his constitution is injured so as to
predispose to consumption or other constitutional
disease, the Doctor guarantees a cure, or asks no
compensation. In rheumatism, chronic or acute,
in dysentery or diarrhea, he has safe and effectual
remedies. For the treatment of the consequences
of self abuse, such as nocturnal emissions, nervous-
ness, timidity, headache, ringing in the ears, pains
in the back and limbs, with general weakness, loss
of appetite, loss of memory, injury to the sight,
restlessness, confusion of ideas, dislike for society,
and a feeling of weariness of life, the nervous sys-
tem so excited that slight noises shock or startle
the patient, making his existence miserable. For
the above maladies, the Doctor will guarantee a
cure, without mercury or any injurious drugs, or
ask no compensation. He can be consulted free
of charge, and invited to call, as he will con-
sider nothing and may be much to their advantage.
Office hours from 9 A. M. to 9 P. M.

Spermatorrhea.
Or local weakness, nervous debility, low spirits,
lassitude, weakness of the limbs and back, indi-
position and incapacity for labor and study, dull-
ness of apprehension, loss of memory, aversion to
society, love of solitude, timidity, self-distrust, diz-
ziness, headache, involuntary discharges, pain in the
side, affections of the eyes, pimples on the face
sexual and other infirmities in man, are cured with-
out fail by the justly celebrated physician and sur-
geon Dr. J. M. MOREENO. His modern and complete
disease is new (unknown to others) hence his great
success.

No Necessity for a Personal Interview.
Persons residing at a distance who find it in-
convenient to leave their business and visit the Doc-
tor at his office, by sending a full and minute de-
scription of their complaints, together with ten dol-
lars, can have their medicines forwarded to any part
of the Pacific coast, together with full directions
for use, without charge for medicine.

A Preventative.
Persons who wish to guard against disease or
the natural consequences of the marriage state,
can have a preventative forwarded that can be re-
lied upon at all times, by sending two dollars en-
closed a letter directed to Dr. MOREENO, Box
128, P. O., San Francisco.

Certificate for Dr. Moreeno.
This is to certify that having suffered for a long
time and almost without hope of recovering my
health, from Secondary Syphilis, and that after
consulting many eminent Physicians without ob-
taining any relief, placed myself under treatment
of Dr. J. M. MOREENO, and that by his skillful
and attentive treatment, he, in a comparatively
short time, not only effected a perfect cure of my
disease and restored me to my usual health, but
also effected all traces of my unhappy malady.
Therefore, I recommend to all suffering from the
same cause, to apply at once to Dr. MOREENO
where they are sure to receive all the attention and
help a skillful physician is able to render.

J. NO. E. REED, Succesor to Rancho.
Subscribed and sworn to before me this 14th
day of April, A. D. 1863.

A. G. RANDALL, Notary Public.
State of California, county of San Francisco.

OFFICE OF J. M. MOREENO,
Kearney Street, corner of Commercial.
21-3m. SAN FRANCISCO.

MAKE ROOM FOR THE FLORENCE!!

IT MAKES FOUR DISTINCT STITCHES, FEEDS
THE WORK, EITHER WAY, SEWS THIN
AND HEAVY GOODS WITHOUT
CHANGE OF TENSION,
WILL GATHER,
AND SEW ON AT THE SAME TIME.

IT MAKES A
STITCH ALIKE ON
BOTH SIDES OF THE FABRIC,
HAS NO SPRINGS TO GET OUT OF
ORDER, AND IS THE MOST RAPID SEWER
IN THE WORLD. EVERY MACHINE WARRANTED

We, the undersigned, have each purchased a
FLORENCE SEWING MACHINE and have them
now in use. We have thoroughly tested them on
work of all grades—heavy, medium and light—and
our opinion is that the Florence is durable, will not
easily get out of order, is strong and simple in con-
struction, and its use is easily learned by the most
inexperienced.

It will do a greater range of work, with less
trouble and change, and we consider it altogether
better than any other Family Sewing Machine we
have ever seen.

Mrs. P. Scherz, 233 Mission street, S. F.
Mrs. Sarah P. Vink, dressmaker and seamstress, 109
Stevenson street, San Francisco.

We could refer to many others who are using the
Florence if it were necessary to do so to convince
the public that these Machines are what is claimed,
the

BEST FAMILY SEWING MACHINE IN THE WORLD!!

Over Seven Hundred
FLORENCE MACHINES have been sold on this coast
in the short time since the Agency has been estab-
lished here, and we make this strong assertion, as
convincing proof of the truth, that no person can
be found who has a Florence, but would exchange
it for a Family Sewing Machine of any other man-
ufacture.

PRIVATE MEDICAL AID.

Quick Cures & Moderate Charges.
DR. W. K. DOHERTY'S
Private Medical & Surgical Institute.

Sacramento street, below Montgomery, opposite
the Pacific Mail Steamship Co's office.
Private entrance on Leidesdorf street.
San Francisco.

Established expressly to afford the afflicted sound
and scientific Medical aid, in the treatment
and cure of all Private and Chronic
Diseases, such as Syphilis,
&c., &c.

TO THE AFFLICTED.—Dr. W. K. Doherty re-
turns his sincere thanks to his numerous patients
for their patronage, and would take this opportunity
to remind them that he continues to consult at his
Institute for the cure of chronic diseases of the
Lungs, Liver, Kidneys, Digestive and Genito-Uri-
nary Organs, and all private Diseases, viz: Syphilis
in all its forms and stages, Venereal Diseases, and
all the horrid consequences of self-abuse
—Gonorrhea, Gleet, Strictures, Nocturnal and Diurnal
Emissions, Sexual Debility, Diseases of the back
and joints, inflammation of the Bladder and Kidneys,
etc., and he hopes that his long experience and
successful practice of many years will continue to
insure him a share of public patronage. By the
practice of many years in Europe and the United
States, he is enabled to apply the most efficient
and successful remedies against diseases of all kinds.
He uses no mercury, charges moderate, treats his
patients in a correct and honorable way, has refer-
ences of unquestionable veracity from men of
known respectability and high standing in society.
All parties consulting him by letter or otherwise,
will receive the best and gentlest treatment and
implicit success.

READ THE FOLLOWING.—A case of Gleet and
Stricture.—Dear Sir: I feel my health
so fully restored, that in common gratitude, I
believe I should make some written acknowl-
edgment for your valuable services—particularly so
as your fee was small for the work performed. I ar-
rived in this city from the East about one year ago,
and was then suffering from an old case of Gleet,
complicated with stricture. Being a stranger in
this city, and believing those doctors who gave
such positive assurances of success were necessarily
the best (some of whom were in the number of
titles), I placed myself in their charge and con-
tinued under their treatment until I had lost nearly all
hope and considerable sum of money. I wish to
say now that you are the sixth Doctor I have en-
countered, and the only one that has ever done me
any service. My Gleet is wholly cured, the stric-
ture is all removed, and my general health is bet-
ter than it has been for many years. I am con-
vinced that to the many unfortunate who require
medical advice, if you have any doubts as to whom
you may employ, ask Dr. Doherty for my address,
and call and see me. (I keep store at 1214 S. F.)
My experience may save you many dollars. I
would also add that in the early stage of my dis-
ease, I used a large amount of the preparations ad-
vertised as an infallible cure for Gonorrhea, etc.,
but never derived any benefit from them. I
am, Doctor, very truly yours.

L. H. H.
San Francisco, June 16th, 1864.

Subscribed and sworn to before me, this 21st day
of June, 1864. A. S. GOULD, Notary Public.

SEMINAL WEAKNESS.—A sworn-to Certificate
of a remarkable cure of Spermatorrhea.—
A desire to benefit humanity, and a feeling of grati-
tude to Dr. W. K. Doherty, induce me to make
this statement. For many years I have been
afflicted with that fearful disease known as "Sper-
matorrhea," or Seminal weakness, the result of
self-abuse, but all the experienced and able doc-
tors I consulted, and the medicines I used, did me
no good, and in consequence of this, I was
troubled and inconvenienced in that year, however,
I had Seminal weakness to an alarming extent,
which was soon followed by the most alarming
symptoms, as weakness of the back and limbs, pain
in the head, dimness of vision, nervousness and
general debility. My mind too, was afflicted to
such an extent as to seriously impair my memory
my ideas were confused and my spirits depressed.
I was averse to society, had evil forebodings and
self-distrust and was entirely unfitted for any of
the duties of life. I was in the summer of 1863,
I employed the very best medical talent I could find,
and spent several hundred dollars but in no
instance obtained more than temporary relief. I had
about concluded that I was a hopeless case, when
I read of Dr. Doherty's advertisement in the
world, but seeing Dr. Doherty's advertisement, I
thought I should call and see him, as he charged
nothing for consultation. I had an interview with
Dr. Doherty, at his office in Sacramento street, and
his fee for treatment was so reasonable, I deter-
mined to try him, though I did not expect much
benefit from his treatment. On the 5th day of De-
cember last I placed myself under his care, and in
one week, I found myself very much improved, and
now, after five weeks treatment, I feel myself
thoroughly cured of all my troubles, and in the en-
joyment of the best of health, and I will say
my experience may be of benefit to others similarly
afflicted, I subscribe myself

JAMES JOHNSON.
Subscribed and sworn to before me, this 14th
day of Jan, 1864. A. G. RANDALL, Notary Public.

TO FEMALES.—When a female is in trouble or
afflicted with disease, as weakness of the back
and limbs, pain in the head, dimness of sight, loss
of muscular power, palpitation of the heart, irrita-
bility, nervousness, extreme urinary difficulties,
derangement of digestive functions, general debility
vaginitis, all diseases of the bladder, hysteria, ster-
ility, and all other diseases peculiar to females,
they should go or write at once to the celebrated
female doctor, W. K. Doherty, at his Medical Insti-
tute, and consult him about their troubles and
disease. The Doctor is effecting more cures than
any other Physician in the State of California. Let
no false delicacy prevent you, but apply immedi-
ately and save yourself from all suffering and pre-
mature death. All married ladies whose deli-
cate health or other circumstances prevent an in-
crease in their families, should write or call at
Dr. W. K. Doherty's Medical Institute, and they
